We offer a full-range of EMR software solutions including client/server and web-based (ASP) systems.

Data Conversion & Indexing

- ★ Convert Paper Medical Charts - Index into EMR system
- ★ Continued Remote Data Indexing for your Mail, Scanned Documents and Faxes

About RxScribe

RxScribe Inc provides physicians and hospitals with Medical Transcription Services, Medical Billing Services and Electronic Medical Records. Operating a medical practice requires more than delivering quality patient care and our services help organizations harness the latest in medical record technologies. We help streamline processes and achieve accurate, timely and secure management of patient medical records.

Our services are a perfect blend of industry experience, state-of-the-art equipment and technology to ensure integrity and confidentiality. We envision becoming an extension of your medical records staff, allowing you to spend more time focusing on healthcare and less time worrying about paperwork and administrative functions.
